

Lab – Metasploit

Please join the following rooms on TryHackMe platform and complete all the tasks.

Metasploit: Introduction

An introduction to the main components of the Metasploit Framework.

<https://tryhackme.com/r/room/metasploitintro>

Metasploit: Exploitation

Using Metasploit for scanning, vulnerability assessment and exploitation.

<https://tryhackme.com/r/room/metasploitexploitation>

Metasploit: Meterpreter

Take a deep dive into Meterpreter, and see how in-memory payloads can be used for post-exploitation.

<https://tryhackme.com/r/room/meterpreter>

Blue

Deploy & hack into a Windows machine, leveraging common misconfigurations issues.
